Overall		6,124	68.2±13.4	3,806 (62.1)	2 (1–4)	955 (15.6)	2,802 (45.8)	1,046 (17.1)	209 (3.4)	4,606 (75.2)	205 (3.3)

Values are presented as mean±standard deviation, number (%), or median (interquartile range). Sites are listed in descending order of patient contribution. The Overall row reports totals for the primary analysis cohort. Hospital codes follow the JLK Inspection site identifier

NIHSS, National Institutes of Health Stroke Scale; AF, atrial fibrillation; CMB, cerebral microbleed; Hemo, parenchymal hemorrhage; cSS, cortical superficial siderosis.
